### Focus on Climate! Join our M.Sc. program Integrated Climate System Sciences!

The School of Integrated Climate System Sciences (SICSS) at Universität Hamburg, is the only Graduate School which provides you the unique opportunity to combine your study of observing, modeling and predicting the earth system with studies in economics and social sciences. As a result, you will be well prepared for a career as a climate expert!

SICSS offers you a well-structured study program with an internationally recognized Master of Science. You will study with students and renowned scientists from around the world. SICSS offers coursework in the fields of natural, social and economic sciences.

At present, the program allows the specialization in one of following three tracks:

- Physics of the climate system;
- biogeochemistry of the climate system;
- climate related economics and social sciences.

All courses are held in English. Class size is limited to 20 students. Our research oriented study program has been accredited by ASIIN in 2010.

Application period is annually 15 February 31 March; the program starts every year in October. Interested in this high quality Master's program? For further information, please visit [www.sicss.de](http://www.sicss.de) or contact Katja Grannis at [sicss@uni-hamburg.de](mailto:sicss@uni-hamburg.de).

**Boost your international career in Germany with the Esslingen MBA**

**Hochschule Esslingen**  
University of Applied Sciences  
Graduate School

Alumna Dr. Grace Ng-Krülle, MBA 1999, now a Research Fellow at Solution Forest in Australia wrote:

"The Esslingen MBA is a melting pot of culture, a platform for brainstorming ideas and for building relationships that cut across conventional borders."

Esslingen: one of the first MBA programs in Germany providing top-notch business education.

The Esslingen MBA allows students to study in one of the most industrial regions in Europe. All master's classes are taught in English by highly qualified professors or professionally qualified instructors with rich business experience. Our MBA is well connected to, and well supported by, corporations such as Bosch, Daimler and Festo. Small class sizes of 25 provide students with an optimal learning environment. An internationally diverse MBA class is one of our strongest assets.

It is also one of our greatest teaching tools that we integrate the varied individual perspectives of participants, the educational approach and curriculum. A close relationship to the industry enables students to learn theory and gain state-of-the-art knowledge, both inside and out of the classroom.

Hands-on learning activities, such as company visits and real examples are carried out under close guidance; students have the opportunity to study German and to explore the German mentality and culture by participating in excursions, cultural lectures and social events. Our programs are strongly sponsored by the German government.

Students receive an MBA valued at over 30,000 for less than 5,000!

Graduate School, Esslingen University of Applied Sciences

Flandernstrasse 101, 73732 Esslingen, Germany
